

## Contents

**List of Contributors** XIII

**Preface** XXI

- 1 Forensic Science – Chemistry, Physics, Biology, and Engineering – Introduction** 1  
*Evgeny Katz and Jan Halámek*  
References 3
- 2 Forensic Applications of Vibrational Spectroscopy** 5  
*Claire K. Muro, Kyle C. Doty, Justin Bueno, Lenka Halámková, and Igor K. Lednev*
- 2.1 Introduction 5
- 2.1.1 Chemometrics 6
- 2.2 Trace Evidence 8
- 2.2.1 Hair Analysis 8
- 2.2.2 Fibers 11
- 2.2.3 Paint Analysis 12
- 2.3 Ink Analysis 16
- 2.4 Forensic Biology and Anthropology 18
- 2.4.1 Body Fluids 18
- 2.4.2 Forensic Anthropology 22
- 2.5 Gunshot Residue 23
- 2.6 Controlled Substances 29
- 2.6.1 Illicit Drugs 29
- 2.6.2 Pharmaceuticals 32
- 2.7 Counterterrorism and Homeland Security 36
- 2.7.1 Explosives 36
- 2.7.2 Chemical Agents 39
- 2.7.3 Bioagents 39
- 2.8 Emerging Technologies 41
- 2.9 Conclusions 43

Acknowledgments 44

References 44

### **3 Applications of Internal Reflection Spectroscopy in Forensic Analysis 55**

*Ali Koçak*

- 3.1 Introduction 55
- 3.2 Principles and Theory 56
- 3.3 Accessories for ATR 59
- 3.4 Forensic Applications of ATR 60
  - 3.4.1 Packing Materials and Adhesive Tapes 60
  - 3.4.2 Paint Samples 61
  - 3.4.3 Drugs 63
  - 3.4.4 Explosives 65
  - 3.4.5 Soil and Minerals 66
  - 3.4.6 Other Developments 67
- 3.5 Conclusion 68
- References 68

### **4 Applications of Mass Spectrometry in Forensic Science: A Brief Introduction 71**

*Roshanak Aslebagh, Pooya Estifae, Selma Mededovic Thagard, and Costel C. Darie*

- 4.1 Introduction 71
- 4.2 Mass Spectrometry 72
  - 4.2.1 Instrumentation 72
    - 4.2.1.1 Ionization Source 73
    - 4.2.1.2 Mass Analyzer 75
    - 4.2.1.3 Detector 75
  - 4.2.2 Tandem MS (MS/MS) 75
  - 4.2.3 Combination of MS with Other Separation Techniques 76
  - 4.2.4 Applications of MS 77
- 4.3 Applications of MS in Forensic Science 77
  - 4.3.1 Drugs and Toxicology 77
  - 4.3.2 Chemical Warfare Agents and Explosives 79
  - 4.3.3 Hair 79
  - 4.3.4 Residues of Gunshots 80
  - 4.3.5 Fingermarks 80
  - 4.3.6 Dyes 80
  - 4.3.7 Glass 81
  - 4.3.8 Drug Packages 81
  - 4.3.9 Paint Analysis 81
- 4.4 Conclusions 82
