

## Contents

Preface *vii*

Hundred Years of Structure Elucidation *1*

Part I Compounds with only Oxygen Functionalities *11*

1 Ascorbic Acid *13*

2 Hinokitiol *19*

3 Cantharidin *27*

4 Camphor *35*

5  $\alpha$ -Terpineol *47*

6 Lactaroviolin *53*

7 Santonin *59*

8 Estrone *75*

9  $\alpha$ -Tocopherol *87*

Part II Compounds with Nitrogen and Oxygen Functionalities *95*

10 Pyridoxine *97*

11 Muscarine *105*

12 Lupinine *113*

13 Lysergic Acid *121*

14     **Riboflavin** 131

15     **Cocaine** 137

16     **Quinine** 151

17     **Colchicine** 167

18     **Luciferin** 181

19     **Strychnine** 191

**Part III   Compounds with Additional Functionalities** 207

20     **Biotin** 209

21     **Thiamine** 221

22     **Griseofulvin** 229

**Part IV   Compounds without Heteroatom-Functionalities** 237

23     **Decacyclene** 239

24     **Carotene** 243

**Part V   Can You Do it Yourself?** 251

25     **Penicillin** 253

**Index** 261
