# Index

- Accelerator laboratories:
  - evolution of, 18–20
  - funding issues, 34–37
  - shift to, 32
- Accessibility, of site, 115
- Account, defined, 158
- Accounting information system:
  - balance sheet, 164–165
  - book closing, 161
  - bookkeeping, 158–161
  - chart of accounts, 161
  - income statement, 162–163
- Acquisition process:
  - overview, 230
  - qualified suppliers, search for, 231–232
  - specifications, 230
- Activity-based costing (ABC), 184–187
- Activity cost, 176
- Actual costs, 175
- Actualization, 167
- Address records, 202–204
- Administrative appraisals, 291
- Administrative units, 125
- Aging:
  - failure and, 264–265
  - organizational, generally, 252–253, 267
  - organizational performance and, 266
  - organizational stress and, 267
  - stage, in management structure, 288–289
- Alphanumeric information database, 124
- Amortization, 165–166
- Annuity, defined, 167
- Apartments, 213–214
- Applied research, defined, 12
- Appraisal, annual, 141–142. *See also* Hay
  - Evaluation Method; Performance;
  - Performance appraisal
- Arbitration, 237
- Architecture:
  - management, 291–292
  - organizational, 292, 294
  - significance of, 115–116
- Argonne National Laboratory, 6, 37
- Asset, in balance sheet, 164
- Automobiles, for transport and delivery, 216, 219
- Balance sheet:
  - asset, 164
  - components of, generally, 161
  - liability, 164
  - limitations of, 164–165
  - in not-for-profit organization, 165
- Barker, Katherine E., 37
- Baselining:
  - resource and schedule, 109–110
  - technical, 109
- Basic research, defined, 11–12
- Bidders, in tendering procedure, 132
- Big science, 8–9, 16–17, 30, 256, 265
- Bill of activity (BOA), 185

- Blanket contract, 234
- Book closing, 161
- Bookkeeping, 158–161
- Brookhaven National Laboratory (BNL), 6–7, 32, 36, 40, 140
- Brookman, James, 275–278
- Budgets:
  - control scheme and, 110–112
  - not-for-profit organizations, 314
  - in strategic programming, 78–80
- Building, costs of, 195–196
- Business plan, 171–172
  
- Cancellations, 271. *See also specific projects*
- Capital, management of, *see* Financial management
- Capital investment, 171
- Career management, 142
- Career paths, 140
- Career plan, 142
- Cash inflow/outflow, 170
- Cash position, 170–171
- Change management, 281–282
- Chart of accounts, 161
- Civil engineering projects:
  - building, cost of, 195–196
  - project team, 195
  - volume, determination of, 196–197
- Civil service, 139
- Classical contracts, 227, 248
- Closed institution, 304
- Closing date, in acquisition process, 231
- Collaboration, 20, 33, 41, 236, 246–248
- Collective knowledge, 305
- Commercial exploitation rights, 237
- Commitment, significance of, 326
- Communication channels:
  - with customers, 60–61
  - governing bodies, 60
  - horizontal, 48–49
  - importance of, 47
  - internal relations, 61–62
  - with suppliers, 61
  - vertical, 48–49
- Communications:
  - mail office, 199–206
  - nonconventional mail, 206–208
  - the Web, 208
- Compensation:
  - contracts and, 233
  - human resources and, 144–145
  - significance of, 315–316
- Confidentiality, 236
- Configuration management, 112
  
- Conseil European pour la Recherche Nucleaire (CERN):
  - communications, 199–201, 207, 210
  - decision-making process, 33, 40
  - historical perspective, 4, 6
  - housing service, 212
  - income sources, 74
  - ISR project, 14
  - LEP project, 14–15
  - local impact of, 29
  - mail office, 199–201
  - organizational charts, 50–54
  - research funding, generally, 22
  - staff member studies, 137–138
  - 300-GeV program, 14, 28
- Consumption, as performance measure, 283
- Contingency, 6, 104–105
- Continuity of service, 132
- Contractor(s):
  - maintenance activities, 129–130
  - on maintenance repair team, 191–193
  - role in tendering procedure, 132
  - transport and delivery, 216
- Contracts:
  - classical, 227, 248
  - compensation, 233–234
  - defined, 233
  - in development phase, 97
  - employee, types of, 89, 140
  - governance structure, 234–237
  - guidelines for, 131
  - make or buy decisions, 227–229
  - management, 128–130
  - minor works, 128–129
  - neoclassical, 227
  - relational, 228
  - service, 128–130
  - short-term, 133
  - social consequences of, 130–131
  - staff, 89
  - supervision, 133
  - in supply chain, overview, 233–237
  - technical requirements, 130
  - tendering procedure guidelines, 131–132
  - transport and delivery, 218
  - works, 128–129
- Control, management role in, 261
- Control phase, in project process, 97
- Core activities programs, 73
- Corporate strategy, formulation of, 70–72
- Corrective action, 97
- Cost, *see specific types of costs*
  - attribution:
    - activity-based cost modeling, 184–187

- industrial accounting model, 182–184
  - overview, 182
- behavior:
  - cost generation, 176–177
  - experience effect, 178–180
  - scale effect, 177–178
- categories of, 174–175
- defined, 173–174
- estimating, *see* Cost estimating techniques
- management, 175–176
- reduction techniques:
  - better performance from equipment, 187
  - product and production processes, improvements, 188–190
  - product standardization, 187
  - resource mix, changes in, 188
  - work specialization and improved methods, 188
- structure, 78
- types of, 175
- Cost drivers, 78, 176–177
- Cost estimate basis, 76
- Cost estimating techniques:
  - applications, generally, 109
  - cost modeling, 181–182
  - estimating scheme, 180–181
- Cost generation, 176–177
- Cost plus fixed fee, 233
- Cost reimbursement contracts, 233–234
- Council for Science and Technology, 31
- Credibility, 317
- Credit, defined, 158–159
- Critical success indicators (CSI), 69, 86
- Current assets, 164
- Customers:
  - communication channels with, 60–61
  - identification of, 67
- Database, site requirements:
  - alphanumeric information, 124
  - drawings, 123–124
  - overview, 116–117
- Debit, defined, 158–159
- Decision-making:
  - in the Information Age, 302–303
  - process overview, 30–31
  - strategic, 303–304
  - systems, *see* Decision-making systems
- Decision-making systems:
  - decision-making process, 30–31
  - external structures, evolution of, 31–33
  - government and funding agencies, relations with, 27–28
- industry, impact on, 29–30
  - local impact, 28–29
- Decoherence effect, 340
- Decommissioning:
  - completion of scientific experiment, 221
  - cost of, 222
  - milestone in scientific experiment, 221
- Deliverables:
  - defined, 96
  - (D<sub>1</sub>) structure, 100–101
- Delivery vans, 216
- Depletion, defined, 166
- Depreciation method, 166
- Design phase, in project process, 95, 108
- Design philosophy, 115–116
- Design study, 95
- Destructive coherence, 340–341
- Deutsches Elektronen-Synchrotron (DESY):
  - function of, generally, 32
  - organizational chart, 53, 55
  - recruitment, 140
- Development phase, in project process, 96–97
- Development programs, 73
- Digital Communication System (DCS), 207
- Direct costs:
  - in decommissioning, 222
  - defined, 174–175
- Documentation:
  - quality assurance, 242
  - strategic planning, 84
- Dormitories, 213
- Double-entry bookkeeping, 160–161
- Drawings, database, 123–124
