Preface IX

List of Contributors XI

- 1 Introduction** 1
Andreas Züttel
References 6
- 2 History of Hydrogen** 7
Andreas Züttel, Louis Schlapbach, and Andreas Borgschulte
 - 2.1 Timeline of the History of Hydrogen 7
 - 2.2 The Hindenburg and Challenger Disasters 14
 - References 20
- 3 Hydrogen as a Fuel** 23
 - 3.1 Fossil Fuels 23
Sonja Studer
 - 3.2 The Carbon Cycle and Biomass Energy 37
Samuel Stucki
 - 3.3 The Hydrogen Cycle 43
John D. Speight
References 68
- 4 Properties of Hydrogen** 71
 - 4.1 Hydrogen Gas 71
Andreas Züttel
 - 4.2 Interaction of Hydrogen with Solid Surfaces 94
Andreas Borgschulte and Louis Schlapbach
 - 4.3 Catalysis of Hydrogen Dissociation and Recombination 108
Ib Chorkendorff
 - 4.4 The Four States of Hydrogen and Their Characteristics and Properties 125
Seijirau Suda

vi	<i>Contents</i>
4.5	Surface Engineering of Hydrides 132 <i>Sejjirau Suda</i> References 139
5	Hydrogen Production 149
5.1	Hydrogen Production from Coal and Hydrocarbons 149 <i>Andreas Borgschulte and Andreas Züttel</i>
5.2	Electrolysis: Hydrogen Production Using Electricity 155 <i>Ursula Wittstadt</i> References 163
6	Hydrogen Storage 165
6.1	Hydrogen Storage in Molecular Form 165 <i>Andreas Züttel</i>
6.2	Hydrogen Adsorption (Carbon, Zeolites, Nanocubes) 173 <i>Michael Hirscher and Barbara Panella</i>
6.3	Metal Hydrides 188 <i>Andreas Züttel</i>
6.4	Complex Transition Metal Hydrides 195 <i>Klaus Yvon</i>
6.5	Tetrahydroborates as a Non-transition Metal Hydrides 203 <i>Shin-ichi Orimo and Andreas Züttel</i>
6.6	Complex Hydrides 211 <i>Borislav Bogdanović, Michael Felderhoff, and Ferdi Schüth,</i>
6.7	Storage in Organic Hydrides 237 <i>Andreas Borgschulte, Sandra Goetze, and Andreas Züttel</i>
6.8	Indirect Hydrogen Storage via Metals and Complexes Using Exhaust Water 244 <i>Sejjirau Suda and Michael T. Kelly</i> References 256
7	Hydrogen Functionalized Materials 265
7.1	Magnetic Heterostructures – A Playground for Hydrogen 265 <i>Arndt Remhof and Björgvin Hjörvarsson</i>
7.2	Optical Properties of Metal Hydrides: Switchable Mirrors 275 <i>Ronald Griessen, Ingrid Anna Maria Elisabeth Giebels, and Bernard Dam</i> References 327
8	Applications 335
8.1	Fuel Cells Using Hydrogen 335 <i>K. Andreas Friedrich and Felix N. Büchi</i>
8.2	Borohydride Fuel Cells 364 <i>Zhou Peng Li</i>

8.3	Internal Combustion Engines	371
	<i>Gerrit Kiesgen, Dirk Christian Leinhos, and Hermann Sebastian Rottengruber</i>	
8.4	Hydrogen in Space Applications	381
	<i>Robert C. Bowman Jr. and Bugga V. Ratnakumar</i>	
	References	410
	Index	415
