

Content

Preface VII

Acknowledgements IX

1 Introduction 1

- 1.1 First Question: Determination of Ibuprofen in Plasma 2
- 1.2 Second Question: Determination of Tryptophan in Urine 7
- 1.3 Third Question: Determination of Paclitaxel in Tissue 10

2 Planning of Analyses 13

- 2.1 Introduction 13
- 2.2 Limit of Detection (LOD) and Determination (LLOQ) 14
- 2.3 Detectors 15
- 2.4 Structure of the Analyte 17
- 2.5 Solubility of an Analyte 20
- 2.6 Selection of the Detector 21

3 Sample Preparation 23

- 3.1 Dilution 23
- 3.2 Protein Precipitation, Overview 23
- 3.3 Extraction 25

4 HPLC Separation 35

- 4.1 HPLC Pumps 36
- 4.2 Degasser 38
- 4.3 Injector 38
- 4.4 HPLC Columns 39

5 Detection 45

- 5.1 Detection in the Pharmaceutical/Bioanalytical Area 46
- 5.2 Detection in the “Clinical Area” (Therapy Control/Compliance) 46

6 Chemical Derivatization for Detection Enhancement 49

7	Validation Concepts	53
7.1	Introduction	53
7.2	Realization of the FDA Guideline	55
8	Practical Hints Concerning Stability, Destruction and Degradation Products	59
9	Metabolites	61
10	Internal Standards	63
11	Case Studies with Intensive Discussion for Each Substance	65
11.1	Acetylcarnitine in Plasma	66
11.2	Acetylcysteine in Plasma	68
11.3	Acyclovir in Plasma and Urine	72
11.4	Caffeine in Plasma	74
11.5	Diazepam in Plasma	78
11.6	Diclofenac in Plasma	79
11.7	Dihydralazine in Plasma	82
11.8	Duramycin (Moli1901) in Plasma	85
11.9	Fluticasone Propionate in Plasma	89
11.10	Hydroxytriamterene Sulfate and Triamterene in Plasma and Urine	92
11.11	Ibuprofen in Plasma (also Enantiomeric Separation)	94
11.12	Minocycline in Plasma	96
11.13	Norfloxacin in Plasma and Urine	98
11.14	Paclitaxel in Plasma, Urine and Tissue	101
11.15	Paracetamol (Acetaminophen) in Plasma	104
11.16	Pimelic Acid in Plasma and Urine	106
11.17	8-Prenylnaringenin in Plasma and Different Types of Tissues	108
11.18	Silibinin in Plasma	110
11.19	Valnemulin in Plasma, Different Tissue Types and in Animal Feed	115
11.20	Vitamin B1 (Total Thiamine) in Plasma	118
	Table 11.1 Recommended books	121
	Table 11.2 Properties of substances	124
	Appendix	135
	Short Description of Determination for about 100 Substances	135
	Substances listed in the Appendix	138
	A Short Explanation of Tables Presented in the Appendix	139
