

Index

a

adiabatic evaporator 317
 adiabatic heat exchanger 8, 15, 332, 344
 adiabatic steady flow-mixing device 344
 AGMD desalination system 239–240
 air density 312, 314, 342
 anion membrane 150, 205, 282
 anions exchange membrane 276
 atmospheric mass 309

b

Binary cycle 328
 boiling phenomenon 7
 boiling point elevation (BPE) 17, 24, 32–33, 36, 38, 41, 48, 54, 60, 67–69, 71–72, 80, 82, 86, 89, 91, 104–106, 118, 120–122, 142, 245, 356, 363
 brackish water 1, 3, 11–12, 24–25, 50, 52–53, 70, 77, 150, 157, 164, 171, 173, 178, 187–189, 208, 215–216, 218, 220–222, 253, 276, 285, 293, 346, 369
 brackish water desalination technology 205, 207, 220, 368
 Brayton cycle 29, 350
 brine temperature 32, 81, 89, 92, 95, 100–102, 106, 119, 140, 309, 356
 burning fossil fuels 17, 291, 292
 butane hydrocarbon fluids 328

c

cation exchange membrane 213, 276
 cation membrane 150, 202, 205
 concentrating collector 304, 337, 364
 concentration polarization 157, 194, 198, 208, 213, 219, 229, 237, 241, 254, 257, 264–267, 280, 287
 concentration polarization factor 158–159
 condenser energy analysis 42
 convection heat transfer 298–299, 300, 304, 306, 338
 convective heat transfer coefficient 89, 93, 298, 306
 current intensity 211, 213–215, 220

d

demister pressure drop 95
 density gradient 298
 desalination 327
 adsorption processes 3, 163
 chemical processes 3
 cost analysis 123–124
 definition 1
 energy requirement 13, 66, 349
 membrane desalination system 3, 10–12, 24, 149, 203, 256, 277, 330–331, 378–379
 membrane desalination technologies 1, 304
 membrane processes 3

- plants 2, 23, 31, 64, 71–74, 85, 96, 102, 106, 140–141, 187, 222–223, 229, 294, 339, 346, 351–352, 356, 360, 377
