Acronyms *xiii*
About the Authors *xv*

Part I Defining Smart Digital Manufacturing and Manufacturing 4.x *1*

1 Introducing Manufacturing 4.x for Smart Digital Manufacturing *3*
1.1 From Industry 4.0 to Manufacturing 4.x *6*
1.2 Manufacturing Operations: The Permanent Functions to Which Manufacturing 4.x Is Applied *9*

2 The Framework for Manufacturing 4.x *15*
2.1 The Time Factor *17*
2.2 Manufacturing 4.x Iterations *19*

3 The Manufacturing 4.x Roadmap *23*
3.1 The Role of Digital Twins in Manufacturing 4.x *29*
3.2 Manufacturing 4.x Enabling Technologies *31*

4 Finding Your Tipping Points *33*
4.1 Market Trends *33*
4.1.1 Globalization *34*
4.1.2 Mass Customization *34*
4.1.3 Proliferating Regulations and Standards *35*
4.1.4 Market Consolidation and Technology Partnerships *36*
4.2 Strategic Considerations *37*
4.2.1 Accommodating High-mix, High-volume Production *37*
4.2.2 Design Anywhere, Build Everywhere *38*
4.2.3 Manufacturing Data Utilization *39*

4.3 Field Data Utilization *40*
4.4 From the General to the Specific *41*
References *41*

Part II Manufacturing 4.x for Specific Approaches *43*

5 Manufacturing 4.x for Repetitive Operations *47*
5.1 High-volume Efficiency *48*
5.2 Making to Order, Repetitively *51*
5.3 Data and Closed Loops *54*
5.4 Repetitive Manufacturing and Manufacturing 4.x *55*

6 Manufacturing 4.x for Process Industries *57*
6.1 Process Manufacturing Distinctives *57*
6.2 Outstripping Legacy System Capabilities *61*
6.3 Integrated, Distributed Production *62*
6.4 Batches of One with Speed to Market *63*
References *66*

7 Manufacturing 4.x for Complex Manufacturing *67*
7.1 Paths to Digital Integration *68*
7.2 Globalization and Disruptive Product Technology *70*
7.3 Closing the Supply-chain Loop *71*
7.4 Closed-loop Quality Through Long Product Lives *73*
References *74*

8 Manufacturing 4.x for Small and Medium Businesses, Cloud Adoption *75*
8.1 The Solution in Point Solutions *76*
8.2 What to Look for in Each Point Solution *76*
8.3 What the Cloud Means for Manufacturing SMBs *78*
8.4 The Cloud Gives Control to Users for Smart Data Insights *80*
8.5 Bringing Together the IIoT with the Manufacturing IT Landscape *84*
References *84*

Part III *85*

9 Critical Success Factors *87*
9.1 The Workforce and Change Culture *87*
9.2 The Role of Management *89*
9.3 Transformation Beyond the Digital *89*
Reference *90*

10 Conclusion *91*

Index *95*
