Supporting Information for

Solution-phase mixture synthesis with fluorous tagging *en route*: Total synthesis of an eight-member stereoisomer library of passifloricins

Dennis P. Curran,* Gustavo Moura-Letts and Matthias Pohlman

Department of Chemistry, University of Pittsburgh, Pittsburgh, PA 15260

email: curran@pitt.edu

Table of Contents

¹ H (300 MHz) and ¹³ C (75 MHz) NMR Spectra of tagged isomers 6	2
¹ H (600 MHz) and ¹³ C (150 MHz) NMR Spectra of passifloricins 1	18
