Biohack Me

The Practical Guide to Everyday Biohacks Anyone Can Use to Optimise Their Health and Longevity

Camilla Thompson

[View on Edelweiss](#)

Supercharge your life. One biohack at a time.

Do you struggle to prioritise your health amongst the demands of a busy lifestyle? Are you afraid of growing old and not thriving in your later years? Then maybe biohacking is for you. Biohacking is all about hacking your biology and environment so you can live better for longer. It involves making small, incremental changes to your lifestyle and diet today that will improve your health, vitality and wellbeing into the future.

Biohacking proves that we have more control over ageing than what we might think. With *Biohack Me*, you'll discover that ageing is something we should embrace, not fear. Author Camilla Thompson is a trailblazer in biohacking, nutrition, and health coaching. As a trusted coach and wellness mentor, Camilla has dedicated nearly a decade of her life to helping others optimise their health and longevity. In this powerful guide, she provides clear, actionable strategies that will empower you to take charge of your health and protect your cognitive and physical wellbeing as you age.

By learning the biohacking framework outlined in this book, you can improve your sleep, mood, health, relationships, brain and so much more. You'll learn:

- The importance of sleep rituals and habits, like nasal breathing and your circadian rhythm
- Strategies to boost your energy through intermittent fasting, red-light therapy and cold exposure
- How to revolutionise your relationship with stress and anxiety using the circle of control
- Methods to improve your nervous system function, such as breathwork and acupuncture
- Why neuroplasticity is crucial for optimum long-term brain function

Mental as Anyone

A Toolkit for Surviving and Thriving on the Chaotic Rollercoaster of Life

Jonathon Moran

[View on Edelweiss](#)

A personal and honest new approach to building a life tool kit you can use to meet all your toughest challenges head-on

In *Mental As Anyone* veteran journalist and host of the popular *Mental As Anyone* podcast, Jonathon Moran, and clinical psychologist, Dr Jodie Lowinger, deliver a practical mental health guidebook that will help you feel less isolated and more empowered on your journey from chaos to calm.

Mental health affects everyone in some shape or form, so it's crucial that you build your "life tool kit" to combat the ups and downs. Moran's personal trauma built his tool kit, so with the help of Dr Lowinger he will help you discover your own real-life coping strategies you can implement immediately to improve your mental health. These comprehensive mental wellness tools and strategies will help you with issues related to sexuality, depression, addictive substances and behaviours, self-esteem, loss, and abuse.

Inside the book:

- Actionable advice you can put in your "life tool kit" and draw on every day to help you face life's inevitable challenges
- Extraordinary stories from Moran's personal and professional life, from meeting Madonna to spending an evening in Carrie Fisher's hotel room
- Universally applicable self-help strategies grounded in psychology and the authors' experiences and professional practice

Perfect for anyone interested in becoming the best version of themselves, *Mental As Anyone* is a timely and personal reminder that life can be a struggle, but we all have it within ourselves to overcome its obstacles.

The Teach Like a Champion Guide to the Science of Reading

Translating Research to Reignite Joy and Meaning in the Classroom

Doug Lemov

The most comprehensive and practical guide to understanding and applying the science of reading to improve literacy instruction.

After effectively teaching phonics in the early grades, what does the science of reading tell us should happen in literacy classes? *The Teach Like a Champion Guide to the Science of Reading* by Doug Lemov, Erica Woolway, and Colleen Driggs, addresses the pressing challenges educators face in effectively incorporating the Science of Reading into their instruction once students already know how to decode. By offering actionable guidance grounded in seven evidence-based principles, this book helps teachers elevate their instructional practices and better prepare students to be lifelong readers and thinkers.

Grounded in proven classroom instruction, the book focuses on techniques that can allow teachers to use the science as effectively and actionably as possible. *The Teach Like a Champion Guide to the Science of Reading* is enhanced with more than 50 video clips from the classroom and covers ways to practically apply the Science of Reading. The book describes the often overlooked role of fluency in reading comprehension, even into the high school years; the profound importance of managing and socializing attention in an age of technology; the central role of background knowledge in understanding text; and the doubly important role of teaching vocabulary as a form of knowledge. It adds a discussion of how writing can make students better readers and how important it is that reading classes focus on reading actual books—great ones, ideally. And it closes with a discussion of close reading and the challenge of preparing students to rise to the challenge of complex text.

How to Raise a Citizen (And Why It's Up to You to Do It)

Lindsey Cormack

An essential guide to nurturing the next generation of responsible, informed citizens

Lindsey Cormack's book, *How to Raise a Citizen (And Why It's Up to You to Do It)*, speaks directly to an America in which civic knowledge is alarmingly sparse and many people dread politics. It's a tool for parents, educators, and anyone eager to fill this gap. In the book, Cormack offers an engaging and practical approach to discussing political issues and the inner workings of the U.S. government with children. She explains why our schools can no longer be the sites of civic education that they used to be and provides parents with strategies and necessary know-how to be able to impart these lessons to their children. From the intricacies of the voting process to the foundational principles of democracy and the significance of key government documents like the Constitution, the author demystifies complex topics with clarity and insight.

You'll also find:

- Data about the current state of the American citizenry, our educational approaches to civics, and the risks of civic disengagement
- A framework for starting important political discussions at home
- Comprehensive explanations of American federalism and how different branches of government are responsible for different functions
- Strategies for navigating federal, state, and local elections

Flint Del Sol

Answers to all your burning questions and practical advice for helping LGBTQ+ students thrive

In *Teach Like an Ally: An Educator's Guide to Nurturing LGBTQ+ Students*, veteran classroom teacher and celebrated transgender advocate Flint Del Sol weaves humor, storytelling, and expertise into a hands-on guide for educator-allies. Del Sol offers actionable strategies that you can implement in classrooms right away. He also tackles the complex questions teachers face: What should you do when a student asks for one name in the classroom, but another at home? Or when you're sure a student is trans, but they haven't said anything to you? How do you know your bathroom pass policy isn't hurting your most vulnerable students? What do you do when your values are at odds with school policy?

Building a positive school climate doesn't have to be intimidating. In *Teach Like an Ally*, you'll learn how educators can support each other and how we can all give LGBTQ+ students the best possible chance to flourish.

- Get candid answers to difficult questions about LGBTQ+ students in the classroom
- Become a stronger ally by understanding what LGBTQ+ students go through in secondary school settings
- Learn the research-backed practices you can implement to make your classroom a safe space for all
- Support all students in developing compassion and understanding for one another

Boom to Backlash

George Floyd's Legacy on DEI as a Business Imperative

DK Bartley

How the murder of George Floyd transformed the attitude towards and implementation of DEI across the world

Boom to Backlash: George Floyd's Legacy on DEI as a Business Imperative examines the seismic shift in DEI initiatives following George Floyd's completely preventable death, exploring the initial surge of corporate commitments to DEI, the tangible progress and advancements made, and the subsequent backlash. Through data and case studies, as well as the unparalleled personal experiences of Black executive, global DEI expert, and author DK Bartley, this book illustrates how DEI has evolved from a fringe concept to a crucial element of business strategy, corporate success, and social progress. Some of the topics explored in this book include:

- The mischaracterization of DEI as "new" or "woke" by various platforms
- The real impact of DEI on a business's bottom line
- The future of DEI with respect to the current political climate and technology's role in implementation strategies
- Why George Floyd's murder was a catalyst for change

By addressing these critical aspects of DEI within the context of recent historical events, *Boom to Backlash* engages with a growing audience of business and political leaders, social media influencers, HR professionals, and individuals who want to understand and implement effective DEI strategies in a post-2020 world.

Roadkill

Unveiling the True Cost of Our Toxic Relationship with Cars

Henrietta L. Moore

Learn how to shift gears and save the planet while we still can

Roadkill: Unveiling the True Cost of Our Toxic Relationship with Cars by Henrietta L. Moore and Arthur Kay dives deep into the pressing environmental and social challenges posed by our dependency on automobiles. The book critiques the common myths surrounding car culture, providing readers with a comprehensive understanding of the broader implications of car use. Through expert analysis, Moore and Kay challenge the notion that simply switching to electric vehicles is sufficient, instead advocating for a fundamental shift in how we understand personal freedom and transportation.

In *Roadkill*, readers will uncover insights into the detrimental impact of cars on the planet and society. The authors question deeply ingrained perceptions and call for transformative changes rather than superficial fixes. They expose the moral and environmental flaws in the love affair humanity has with the car industry, equipping readers with the knowledge they need to enact meaningful change.

Inside the book:

- Compelling challenges to the idea that the necessary changes are merely individual and behavioral
- Decoupling the ideas of personal freedom and autonomy from cars
- Debunking the myth that shifting to electric or autonomous cars is an effective solution

[View on Edelweiss](#)

Roadkill is aimed at environmentally conscious people, policymakers, and anyone interested in a sustainable future. The book is not just a critique but a call to action for those who wish to see a substantial societal shift towards sustainable living.

The Athlete's NIL Playbook

The Complete Guide to Owning and Profiting from Your Name, Image, and Likeness

Kristi Dosh

Definitive guide for athletes to understand and earn from name, image, and likeness (NIL) rights

The first comprehensive guide designed to help college, high school, and youth athletes navigate the name, image, and likeness (NIL) rights they've gained since 2021, *The Athlete's NIL Playbook* walks readers through NIL rules, opportunities, and red flags, showing them how to build a personal brand, find deals, reach out to companies, and negotiate terms. Along with real-life examples, exercises, and pitch templates, this book includes case studies from college and high school athletes who have successfully navigated this burgeoning market: Cavinder Twins, Olivia Dunne, Travis Hunter, Chase Griffin, Emily Cole, and many more.

Written by Kristi Dosh, a seasoned sports business reporter and founder of a nationally-recognized news platform covering the business of college sports, this book covers aspects of NIL including:

- The types of opportunities available (social media marketing, lessons, camps/clinics, merchandise, personal appearances, and more)
- Whether you need an agent or not, and how to find the right one if you do
- Working with third parties like collectives and marketplaces and protecting/registering your own intellectual property

A true playbook for leveraging and capitalizing on NIL monetization opportunities, *The Athlete's NIL Playbook* is an essential read for athletes and parents seeking to ensure athletic success is matched with lucrative financial and career opportunities that can go far beyond graduation.

Cyber Threat Actor Engagement

My Life in Cyber Espionage and Ransomware Negotiation

Kurtis Minder

An up close and personal look at cyber espionage and digital spycraft

In *Cyber Recon: My Life in Cyber Espionage and Ransomware Negotiation*, 30-year cybersecurity veteran Kurtis Minder delivers a fascinating exploration of real-world cyber espionage in some of the most dangerous places on the Internet. He explains how cyber espionage is performed, the tools and skills that people like him use all the time, and the consequences of engaging with cybercriminals on a daily basis.

You'll learn about how private organizations spy on bad guys and how they negotiate with ransomware criminals to try and recover stolen data. You'll also discover critical lessons that Minder has learned as he's led his digital risk company, GroupSense, through many of the most dramatic incidents of online crime of the last few decades.

Inside the book:

- Dozens of original profiles of cyber espionage and negotiation professionals, with QR-code links to extended YouTube interviews
- Anecdotes and illuminating stories about the author's experience building a business in the cyber market
- An original, non-technical primer on the people that populate the cyber risk landscape and the methods they use to carry out attacks
