

Hans Bock

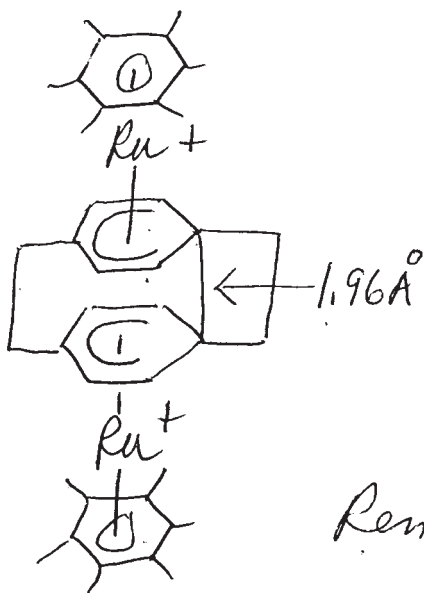

Tetraphenylethyleno-dianion,  
 an unexpected band structure  
 — or, how to explore rather  
 shallow potential wells .....  
 With due respect

Hans Bock  
 (Johann Wolfgang Goethe-University)  
 Frankfurt/Main, West Germany

It was not a strain  
 coming to Japan,  
 Professor Nozoe and his  
 wife were so kind.

University College London. Pell Grant.

Wonderful to see  
 you again

Virgil Boekelheide  
 University of Oregon.

Remember - U. of Rochester  
 in  
 1953!
