It was nice to join the
aromatic chemistry party!

Uri Zoller
Haifa University / Israel

Dear Professor Noree !

Since we are attending
an international Symposium
about Novel Aromatic Compounds,
I am enclosing two plates
of my papers showing
some ideas and results
of the work we have done
during the last 2 years.

It was really nice to
meet you at Victoria,
this beautiful place
full of flowers, and
maybe we will meet
next time at the
top of the Swiss alps.

With my best greetings and wishes, Yours

Markus
