I cannot comment on Chemistry but  
it is a pleasure to dine with you and your  
wife. Have a good visit to Canada.

Peggy Wightman

This has been a splendid conference,  
with a fine list of speakers, a magnificent  
host, a wonderful location, and  
convivial gatherings. We look forward  
to the continuance of this spirit.

Henry Shine

You are the excellent example that  
chemistry is stimulating even in  
"le troisieme age" as the French say  
it so properly.
