

LUCAS BASCH M.D. 1951

På inbjudan av Holger och min gode vän sedan 1953, Tetsuo Nozoe, tillbringar jag några underbara dagar i det jättelika moderna Tokyo. Idag har jag sett såväl Nozoes arbetsrum, fyllt av topologilitteratur, som det eleganta parfymforskningslaboratoriet hos Kao Corporation i Sumida, samt åtnjutit Tetsuos och Hyokos gästfärd och sällskap även i deras hem i Setagaya. Varmaste tack.

I am spending some wonderful days in the modern, giant city of Tokyo, on invitation by Tetsuo Nozoe, a good friend of Holger's and mine ever since 1953. Today I saw not only Nozoe's office, filled with topology literature, but also the elegant perfumery research laboratories, all at Kao Corporation, Sumida, and I was entertained all day by the Nozoes, finally in their home in Setagaya. In all, this was a day spent with old friends, in the midst of our happy memories of many mutual friends and colleagues and many earlier reunions. My warmest thanks.
