四月二十三日

仙台

With my warmest thanks to Professor Nozoe and his collaborators for organizing such a wonderful Symposium in Sendai. This meeting will be for most of the foreign guests, and for myself in particular, an example how to receive friends. Aside of the high level of the Symposium, I have been able to evaluate and appreciate the friendliness and kindness of Japanese people. I have only one wish: to visit again your beautiful country, and this time with my wife and maybe some friends, so they also will enjoy the same pleasure I have had during this first - and I hope not only - visit to Japan.
