

Sendai - April 20, 1965

Warmest thanks to you all - This has been a wonderful visit to a wonderful country and we have enjoyed every minute of it.

Lou Bartlett

7 May 1965.

Dear Professor Nozoe:

It has been a great pleasure to have been associated with you in attempting to further exchanges of ideas between Japanese and U.S. chemists; I am honored to have known you. Please excuse my inability to create a chemical formula; biologists are not always chemists! I trust that we can meet often in the future, and accept my grateful thanks for your excellent handling of our recent meeting.

With kindest regards,

M. Kato Arvey
NSF/Tokyo

Ich danke für die Gastfreundschaft während
meiner kürzlichen Besuche in Sendai.

H.-V. Staehle (C₂=C=O)
