Robert Robinson in the Shell Centre
London S.F.E.

Proposed  which we made at Egham
from citronellol, is a

candidate as intermediate in the biosynthesis
of indole alkaloids. We shall see later.

Congratulate Prof Nozoe on the outstanding
achievement of his son-in-law Prof S. Masamune
in respect of his just success in synthesizing
ayuridine -

Greetings to Professor Nozoe from G.F. Richards on
behalf of all his colleagues at Pergamon Press.
We are very grateful for your help and that
of your Japanese friends who assist with
Tetrahedron and Tetrahedron Letters.

Oxford. 26.8.66.

G.F. Richards

May I add my greetings to Professor Nozoe
to those of G.F. Richards. I look forward to a
long period of happy cooperation on Tetrahedron
and Tetrahedron Letters

Nozoe
