Am very pleased to see such a young professor who can pronounce "loch" correctly  
 souie Raphael.

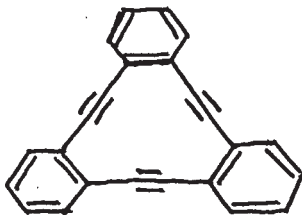

me and Mum

It has been such a pleasure to have you in Glasgow. Please come back again in much less than 13 years.

We are very glad to have your stimulating presence in Glasgow once again. Now that you have started on acetylene chemistry here are two Glaswegian representatives, the first natural (from *Fomes annosus*) and the second very un-natural!
