Very best wishes

London Herb. Buchanan

after hearing Prof. Nozoe I think tropolone
must now bear the trade-mark "made in Japan".

As a student of my friend (of the 20^s in Oxford).
Professor Nomura, Professor Nozoe must be
a good chemist and a likable man.

Am unexpected but very great pleasure for us —
a visit from Prof. Nozoe on a sunny Sunday afternoon
in Cambridge. We hope our friendly contact thus made
will continue & strengthen in the future!

It has been a great pleasure to meet Prof. Nozoe, and I
am sure that Professor Ingold will be not sorry to have
met him, when he hears of Prof. Nozoe's unexpected visit
