

A truly non-benzenoid compound

but of considerable interest to all human beings.

A unforgettable experience both in chemistry and personal experiences. Bob Wightman

The cup is full of sake

שלום דתודה מירושלם

With deep admiration and gratitude

The Hebrew University  
of Jerusalem, Israel.

Israel Agranat  
Sendai, August 28, 1970

At the first (of many) POST-ISNA-Symposia  
at the home of the Scientific Attaché of the  
Swiss Embassy written on behalf of IUPAC:

Profesor Nozoe and his ISNA-Symposium-  
Committee did a wonderful job with their  
organisation and their hospitality in Sendai.

Domus arrigeto socainasu!

H. Zollinger
