F. Hoffmann La Roche Basel, Personal Chair

Partner: Fr. A. Fürst

Present: A. Kroll H. Neumann H. Koutavon

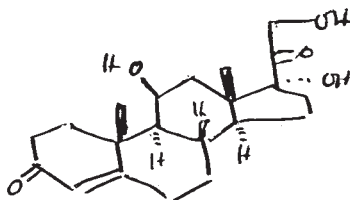

My early and modest contribution to —

Fr. A. Fürst

19. June 1972

CH3COOH  $\xrightarrow{\text{enzymes}}$

Nature is doing this transformation very good. I was asked to do it better. Using CO2 as starting material. Solution of the problem: see next book of Prof. Nozoe; may be later!

A. Fürst
