

It is always a pleasure to see again nice people, old acquaintances. For not being an organic chemist I cannot add to the beautiful art collection of this booklet but a little innocuous reaction:

In the memory of the visit of 19th of September 1972. the elusive oxirene

Hoping to see you here again before too long! Bon Voyage!

Alfred Strauss

To D. Hoge, to express my pleasure at his acquaintance and to hope that it may be renewed each year for many years to come. (My apologies for being a theoretical chemist, unable to offer reactions, but only static combinations of ,  and .)

José Bino
