We spent a most enjoyable afternoon together at Few Gardens — beautiful sunshine, quite a lot of plants in flower (e.g. crocus, mawdop, iris, *Chionodoxa praecox*, *Hamanelis*, *Viburnum*). You took many photographs, and I took you by the ancient *Sophora japonica* (planted in 1759). Even a pagoda + Japanese gate!

With all good wishes

We took tea in our apartment, after walking on the balcony in the evening sunshine.

In the drawing room our hyacinth bulbs were blooming and scenting the room with fragrance.
