

It could not more enjoyable, as he together
with Mrs. and Mr. Nozoe ever so often!

Basel, 1. July 1985. R. Heilbronner

Many years ago I had the honour to write a
chapter on "Annulenes" in the same volume 3
of MTP Series One & Two, in which the famous
Profetson Nozoe wrote on 'Troponoids, heptaful-
venes and Azulenes'. Today it was a great
pleasure and privilege to talk with him
on O=C1C=CC=C1=N=N and O=C1C=CC=C1=N=N and very in-
teresting topics of his recent work.
