

880329

We are very honoured to have You, Professor Nozre, as our guest in our house in Bromma, Sweden.

This is also the evening when we for the first time of this year could hear the blackbird singing - a promise of spring. And this spring we will visit Japan - for we ^{also} the first time - and we are very much looking forward to it - and hope to see You again.

Tjuguesle Torbjörn.
